

CLIMATE ASSESSMENT REPORT

KISIP Tool B: Risk & Vulnerability

Context

County: N/A
Settlement: Kahawa Soweto
Assessor: User #1
Latitude: —
Longitude: —
Assessment Date: 3/23/2026
Status: draft

Dimension Scores (1-3)

Hazard

—

Exposure

—

Sensitivity

—

Adaptive Capacity

—

Overall Scores

Vulnerability

—

Risk

—

Planning Recommendations

Livelihoods

Food Security

- Monitor food production patterns and seasonal variations
- Maintain current food security planning measures

Livelihoods

Grazing/Farm Land

- Monitor grazing land conditions and availability
- Maintain current grazing land use planning

Livelihoods

Crops

- Monitor crop production and climate impacts
- Maintain current crop production planning

Livelihoods

Livestock

- Monitor livestock health and climate impacts
- Maintain current livestock management planning

Livelihoods

Fishstock

- Monitor fish stock levels and water quality
- Maintain current fisheries management planning

Livelihoods

Local Commerce

- Monitor business resilience to climate impacts
- Maintain current commercial area planning

Livelihoods

Gender

- Monitor gender impacts of climate change
- Maintain gender-responsive planning processes

Livelihoods

Conviviality

- Monitor community peace and social cohesion
- Maintain conflict-sensitive planning processes

Livelihoods

Education

- Monitor education continuity during climate events
- Maintain current school infrastructure planning

Livelihoods

Water For Irrigation / Water For Domestic Use

- Monitor water availability for irrigation and household use
- Maintain current water infrastructure planning

Livelihoods

Access to Finance / Income

- Monitor household financial needs related to climate
- Maintain current financial support planning

Livelihoods

Disaster Events

- Monitor disaster risks and preparedness
- Maintain current disaster preparedness planning

Health & Safety

Borne Diseases

- Monitor disease patterns and climate impacts
- Maintain current health surveillance planning

Health & Safety

Safety, Location, Urban Planning & Conditions

- Monitor housing location safety and climate impacts
- Maintain current housing safety planning

Health & Safety

Solid Waste Management

- Monitor solid waste management practices
- Maintain current waste management planning

Health & Safety

Liquid Waste Management

- Monitor liquid waste management practices
- Maintain current liquid waste management planning

Health & Safety

Adequate Health Services

- Monitor health service accessibility
- Maintain current health facility planning

Health & Safety

Assessment of The Healthy Environment

- Monitor environmental health conditions
- Maintain current environmental health planning

Assets and Utilities

Housing

- Monitor housing safety and climate impacts
- Maintain current housing safety planning

Assets and Utilities

Public facilities

- Monitor public facility resilience and climate impacts
- Maintain current public facility planning

Assets and Utilities

Storm Water Drainage

- Monitor storm water drainage functionality
- Maintain current drainage planning

Assets and Utilities

Sanitary facilities

- Monitor sanitary facility adequacy
- Maintain current sanitation planning

Assets and Utilities

Sewer lines

- Monitor sewer system functionality
- Maintain current sewer system planning

Assets and Utilities

Power lines/supply

- Monitor power infrastructure resilience
- Maintain current power infrastructure planning

Assets and Utilities

Energy for HH use

- Monitor household energy access
- Maintain current energy access planning

Assets and Utilities

Water pipes

- Monitor water pipe network functionality
- Maintain current water infrastructure planning

Assets and Utilities

Potable Water Treatment

- Monitor water treatment facility functionality
- Maintain current water treatment planning

Assets and Utilities

Water Storage

- Monitor water storage facility safety
- Maintain current water storage planning

Assets and Utilities

Roads & Transport

- Monitor road and transport infrastructure resilience
- Maintain current transport infrastructure planning

Assets and Utilities

Communication

- Monitor communication infrastructure resilience
- Maintain current communication infrastructure planning

Potable water

Access

- Monitor potable water access
- Maintain current water access planning

Potable water

Scarcities

- Monitor water scarcity patterns
- Maintain current water scarcity planning

Potable water

Quality

- Monitor water quality
- Maintain current water quality planning

EBS

Soil

- Monitor soil conditions
- Maintain current soil management planning

EBS

Land Cover & Permeability

- Monitor land cover and permeability
- Maintain current land cover planning

EBS

Natural Vegetation

- Monitor vegetative cover

- Maintain current vegetation planning

EBS

Wetland

- Monitor wetland conditions
- Maintain current wetland protection planning

EBS

Biodiversity

- Monitor biodiversity conditions
- Maintain current biodiversity protection planning

EBS

Near Water Body

- Monitor proximity to water bodies
- Maintain current riparian protection planning

EBS

Sea

- Monitor sea level changes
- Maintain current coastal protection planning

EBS

Environmental Factors

- Monitor environmental degradation
- Maintain current environmental protection planning

EBS

Land use

- Monitor land use compliance
- Maintain current land use planning

EBS

Topography

- Monitor topography risks
- Maintain current topography planning

Institutions

Early Warning System

- Monitor early warning system functionality
- Maintain current early warning planning

Institutions

Awareness & Information

- Monitor access to weather information
- Maintain current information access planning

Institutions

Engagement & Communication

- Monitor community-government interaction
- Maintain current engagement planning

Institutions

Representation & Reflection in Planning

- Monitor community representation in governance
- Maintain current representation planning

Institutions

Health Facilities Operations

- Monitor health facility adequacy
- Maintain current health facility planning

Institutions

Disaster Preparedness

- Monitor critical infrastructure identification
- Maintain current infrastructure protection planning

Institutions

Disaster Response

- Monitor disaster response preparedness
- Maintain current disaster response planning

Institutions

Post-Flood Recovery

- Monitor recovery finance availability
- Maintain current recovery finance planning

Institutions

Public Facilities Maintenance

- Monitor infrastructure maintenance systems
- Maintain current maintenance planning

Design Recommendations

Livelihoods

Food Security

- Maintain current food storage infrastructure design standards

Livelihoods

Grazing/Farm Land

- Maintain current grazing infrastructure design standards

Livelihoods

Crops

- Maintain current crop protection infrastructure design standards

Livelihoods

Livestock

- Maintain current livestock infrastructure design standards

Livelihoods

Fishstock

- Maintain current fisheries infrastructure design standards

Livelihoods

Local Commerce

- Maintain current commercial infrastructure design standards

Livelihoods

Gender

- Maintain gender-responsive infrastructure design standards

Livelihoods

Conviviality

- Maintain community-friendly infrastructure design

Livelihoods

Education

- Maintain current school infrastructure design standards

Livelihoods

Water For Irrigation / Water For Domestic Use

- Maintain current water infrastructure design standards

Livelihoods

Access to Finance / Income

- Maintain current financial infrastructure design standards

Livelihoods

Disaster Events

- Maintain current disaster-resilient infrastructure design standards

Health & Safety

Borne Diseases

- Maintain current health facility design standards

Health & Safety

Safety, Location, Urban Planning & Conditions

- Maintain current housing design standards

Health & Safety

Solid Waste Management

- Maintain current waste management infrastructure design standards

Health & Safety

Liquid Waste Management

- Maintain current liquid waste infrastructure design standards

Health & Safety

Adequate Health Services

- Maintain current health facility design standards

Health & Safety

Assessment of The Healthy Environment

- Maintain current environmental protection design standards

Assets and Utilities

Housing

- Maintain current housing design standards

Assets and Utilities

Public facilities

- Maintain current public facility design standards

Assets and Utilities

Storm Water Drainage

- Maintain current drainage design standards

Assets and Utilities

Sanitary facilities

- Maintain current sanitary facility design standards

Assets and Utilities

Sewer lines

- Maintain current sewer system design standards

Assets and Utilities

Power lines/supply

- Maintain current power infrastructure design standards

Assets and Utilities

Energy for HH use

- Maintain current energy infrastructure design standards

Assets and Utilities

Water pipes

- Maintain current water infrastructure design standards

Assets and Utilities

Potable Water Treatment

- Maintain current water treatment facility design standards

Assets and Utilities

Water Storage

- Maintain current water storage design standards

Assets and Utilities

Roads & Transport

- Maintain current transport infrastructure design standards

Assets and Utilities

Communication

- Maintain current communication infrastructure design standards

Potable water

Access

- Maintain current water access infrastructure design standards

Potable water

Scarcities

- Maintain current water scarcity mitigation design standards

Potable water

Quality

- Maintain current water quality treatment design standards

EBS

Soil

- Maintain current soil protection design standards

EBS

Land Cover & Permeability

- Maintain current permeability design standards

EBS

Natural Vegetation

- Maintain current vegetation design standards

EBS

Wetland

- Maintain current wetland protection design standards

EBS

Biodiversity

- Maintain current biodiversity protection design standards

EBS

Near Water Body

- Maintain current riparian protection design standards

EBS

Sea

- Maintain current coastal protection design standards

EBS

Environmental Factors

- Maintain current environmental protection design standards

EBS

Land use

- Maintain current land use design standards

EBS

Topography

- Maintain current topography design standards

Institutions

Early Warning System

- Maintain current early warning system design standards

Institutions

Awareness & Information

- Maintain current information infrastructure design standards

Institutions

Engagement & Communication

- Maintain current engagement infrastructure design standards

Institutions

Representation & Reflection in Planning

- Maintain current representation infrastructure design standards

Institutions

Health Facilities Operations

- Maintain current health facility design standards

Institutions

Disaster Preparedness

- Maintain current infrastructure protection design standards

Institutions

Disaster Response

- Maintain current disaster response infrastructure design standards

Institutions

Post-Flood Recovery

- Maintain current recovery finance infrastructure design standards

Institutions

Public Facilities Maintenance

- Maintain current maintenance infrastructure design standards

Community Development Plan Recommendations

Livelihoods

Food Security

- Maintain current food security awareness programs
- Monitor food availability throughout the year

Livelihoods

Grazing/Farm Land

- Maintain current grazing land management practices
- Monitor grazing land quality and availability

Livelihoods

Crops

- Maintain current crop production support programs
- Monitor crop yields and climate impacts

Livelihoods

Livestock

- Maintain current livestock health programs
- Monitor livestock conditions and climate impacts

Livelihoods

Fishstock

- Maintain current fisheries management programs
- Monitor fish stock levels and water quality

Livelihoods

Local Commerce

- Maintain current business support programs
- Monitor business impacts from climate events

Livelihoods

Gender

- Maintain gender-sensitive programs
- Monitor gender-differentiated climate impacts

Livelihoods

Conviviality

- Maintain peace-building programs
- Monitor community relations and climate-related tensions

Livelihoods

Education

- Maintain current education continuity programs
- Monitor school access during climate events

Livelihoods

Water For Irrigation / Water For Domestic Use

- Maintain current water access programs
- Monitor water availability for non-drinking uses

Livelihoods

Access to Finance / Income

- Maintain current financial support programs
- Monitor household financial impacts from climate events

Livelihoods

Disaster Events

- Maintain current disaster preparedness programs
- Monitor disaster risks and community preparedness

Health & Safety

Borne Diseases

- Maintain current disease prevention programs
- Monitor disease incidence

Health & Safety

Safety, Location, Urban Planning & Conditions

- Maintain current housing safety awareness programs

Health & Safety

Solid Waste Management

- Maintain current waste management programs
- Monitor waste disposal practices

Health & Safety

Liquid Waste Management

- Maintain current liquid waste management programs

Health & Safety

Adequate Health Services

- Maintain current health service programs

Health & Safety

Assessment of The Healthy Environment

- Maintain current environmental health programs

Assets and Utilities

Housing

- Maintain current housing safety programs

Assets and Utilities

Public facilities

- Maintain current public facility management programs

Assets and Utilities

Storm Water Drainage

- Maintain current drainage maintenance programs

Assets and Utilities

Sanitary facilities

- Maintain current sanitation programs

Assets and Utilities

Sewer lines

- Maintain current sewer system maintenance programs

Assets and Utilities

Power lines/supply

- Maintain current power infrastructure maintenance programs

Assets and Utilities

Energy for HH use

- Maintain current energy access programs

Assets and Utilities

Water pipes

- Maintain current water infrastructure maintenance programs

Assets and Utilities

Potable Water Treatment

- Maintain current water treatment programs

Assets and Utilities

Water Storage

- Maintain current water storage programs

Assets and Utilities

Roads & Transport

- Maintain current transport infrastructure maintenance programs

Assets and Utilities

Communication

- Maintain current communication infrastructure maintenance programs

Potable water

Access

- Maintain current water access programs

Potable water

Scarcities

- Maintain current water scarcity programs

Potable water

Quality

- Maintain current water quality programs

EBS

Soil

- Maintain current soil management programs

EBS

Land Cover & Permeability

- Maintain current land cover programs

EBS

Natural Vegetation

- Maintain current vegetation programs

EBS

Wetland

- Maintain current wetland protection programs

EBS

Biodiversity

- Maintain current biodiversity protection programs

EBS

Near Water Body

- Maintain current riparian protection programs

EBS

Sea

- Maintain current coastal protection programs

EBS

Environmental Factors

- Maintain current environmental protection programs

EBS

Land use

- Maintain current land use programs

EBS

Topography

- Maintain current topography programs

Institutions

Early Warning System

- Maintain current early warning programs

Institutions

Awareness & Information

- Maintain current information access programs

Institutions

Engagement & Communication

- Maintain current engagement programs

Institutions

Representation & Reflection in Planning

- Maintain current representation programs

Institutions

Health Facilities Operations

- Maintain current health facility programs

Institutions

Disaster Preparedness

- Maintain current infrastructure protection programs

Institutions

Disaster Response

- Maintain current disaster response programs

Institutions

Post-Flood Recovery

- Maintain current recovery finance programs

Institutions

Public Facilities Maintenance

- Maintain current maintenance programs
